To Whomsoever It May Concern

This letter is to certify that, Komal, student of Panipat Institute of Engineering and Technology, Kurukshetra University, Kurukshetra, Haryana, India, Roll No 2815241 have completed the below mentioned training as of part of her college curriculum. She has completed this project under my mentorship from 06 June 2017 to 31 July 2017.

Project Title: Voting System

Brief Description:

The computerized Voting System caters to the need of management of Candidates, voters and processing other voting information.

High Level Design:

The project records list of all the candidates along with their personal details and party name. Then it stores list of all the voters with their personal details. Each voter is assigned a user name and a password. The voter can login the voting machine by entering their user name and password. A voting screen will display contesting candidates' name, Symbol, Party name and a button. Voter can vote by electing the appropriate button.

A database is designed to store all the information related to voting system including but not limited to names of voters with their complete information. In " VOTING SYSTEM" a voter can use his/her voting right online without any difficulty. He/ She has to register first for him/her to vote.

Undersigned does not bear any responsibility other than what is stated in this letter.

Sincerely,

Vinay Kumar

The Chief Engineer (PTPS – II),

Panipat Thermal Power Station, (A unit of HPGCL)

Panipat (Haryana)

Subject: - Permission for one day visit to PTPS for B.Tech II Year (Mech. Engg.) Students

Dear Sir,

We are pleased to introduce ourselves as Panipat Institute of Engineering & Technology, affiliated to Kurukshetra University, Kurukshetra and approved by AICTE, Government of India and Directorate of Technical Education, Haryana. The Institute runs full time programme in Engineering & Management: B-Tech (CSE, ECE, IT, Mech., Civil, Textile), M Tech (CSE, ME, ECE), B.B.A. & M.B.A.

The institute aims at providing an overall personality development of the students through quality education, practical exposure and a conducive learning environment for their personal & professional growth.

As a part of practical exposure to the students we want to arrange a one day visit (two groups of approx. 45 students) for B. Tech. II Year Mechanical Engg. students to Panipat Thermal Power Station, Panipat. You are requested to permit for one day visit to our students as per your convenience and oblige. Hope for an early and favorable response.

Thanking you.

Yours Faithfully,

(Dr. K. K. Paliwal)

Department of Textile Engineering

Institutional Visit to Department of Textile Technology, IIT Delhi

B.Tech (Textile Technology) final year students have visited to Department of Textile Technology, IIT Delhi, New Delhi on **26th October 2016**. Total 32 students and 4 faculty members and 2 staff members were participated in the visit. The student explored the state of art lab of Fiber Science laboratory, Center of Excellence in Protective Textile and Yarn Manufacturing Laboratory.

In Fibers Science lab students have seen the many instrument, which were rarely available at any sight i.e. X-ray diffraction, Scanning Electron Microscopy, Thermo Gravimetric Analysis of synthetic fibers and density gradient column for the measurement of fiber density.

In Center of Excellence of Protective Textile students have explored the working of sophisticated and costly instrument i.e. Kawabata Evaluation System for fabric hands properties, Impact tester for Bulletproof Fabrics and Sweating Guarded Hot plate etc.

Students have also seen the yarn manufacturing laboratory where they have explored the DREF spinning machine for friction yarn manufacturing and pilot spinning plant for ring and rotor yarn production.

Industrial Visit Report to HSIL

Date :- January 8, 2017

Department of Management Studies at Panipat Institute of Engineering and Technology had organised a one day visit on 7th January, 2017 to HSIL (Hindustan Sanitaryware Industries Limited) at Bahadurgarh. Around 50 students were part of this visit. . The students were accompanied by faculty member (Mr. Manish Gulyani).

HSIL is among India's top 500 companies as listed in the 'Fortune India 500' 2014 list. It is more commonly known by its brand 'Hindware', a leading name in Indian market for innovation and quality. It is recognized for unbeatable design, stylish flair and supreme quality at the heart of HSIL's business philosophy. It is also an ISO 9001 14001 OHSAS 18001 certified company. The objective of the industrial visit was to enable the students to understand the complete operation process and varied sub processes of ceramic industry manufacturing household sanitary wares:

During the visit, students learnt the following:

1. Complete process of ceramic industry; from raw material to the finished products;
2. Glazing, polishing, production assembly line, Inventory management;
3. Phases of automation; from manual to robotic operations;
4. Integration of latest ceramic technology with traditional processes;
5. Innovations being made to meet customers demand through R&D; and
6. Future plans to compete with international brands.

The visit helped the students to understand the functioning of the ceramic industry and different processes involved in getting high quality house hold Sanitary Wares.

Industrial Visit Report to Mother Dairy

Date: - January 15, 2017

Industrial visit is a part of the educational tour which provides students with an opportunity to learn practically through interaction, working methods and employment practices. An industrial visit to Mother Dairy, Pargaganj, Delhi was organized on January 13, 2017 for students of MBA Dept. The students were accompanied by faculty member (Dr. Saurabh Garg). This plant deals in production of about 10 lakh litres of token milk (out of 31 lakhs of total milk) and other dairy products distributed in Delhi & NCR on daily basis. College instructed the students about the decorum that was needed to be maintained on the premises. The students got excited and curious after reaching at Mother Dairy plant. They were directed to a conference room where they were welcomed by HR-in charge. He gave a presentation on the working & vision of the company. He gave a brief introduction of White Revolution Movement led by our former prime minister Shri. Lal Bahadur Shastri to provide an uplifting growth & led a transparent system in the milk production in our country. He also demonstrated about the milk processing stages (1.Cleanisation, 2.Homogenisation, 3.Standardization 4.Pasturization) with the help of PPTs. This was a great way to learn about the milk production process in such a renowned plant and to get exposure about the industrial conditions. The students also learned about how milk is collected from the corporate farmers, strictly undergoes 23 quality control tests (mainly comprises of adulterants, temperature, taste, fragrance & weight). Then how this processed milk is transported using thermally isolated milk tankers, and how all of these were installed with wireless GPS System to get alerts in case of emergency conditions. After the question and answer session, they finally got a chance to visit the factory.

The students were shown some adulterant tests, cleaning of milk transport tankers & large SILO containers (each with 1 lakh litre capacity). They gave the information about importance of milk (mainly for teenagers & working class) and its composition, about all the milk varieties (token, toned, full cream & skimmed milk) based on its fat and SNF (Solid not fat) and how these are to be used by different age group peoples. They took the students to a room where fully automatic human operated cleanser, homogeniser and pasteuriser machines were present. Finally on the completion of tour, the appetite was duly taken care with some refreshments.

Industrial Visit to Mother Dairy, New Delhi 2017

**PANIPAT INSTITUTE OF ENGINEERING & TECHNOLOGY
DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
INDUSTRIAL VISIT REPORT**

Date: March 1st, 2017

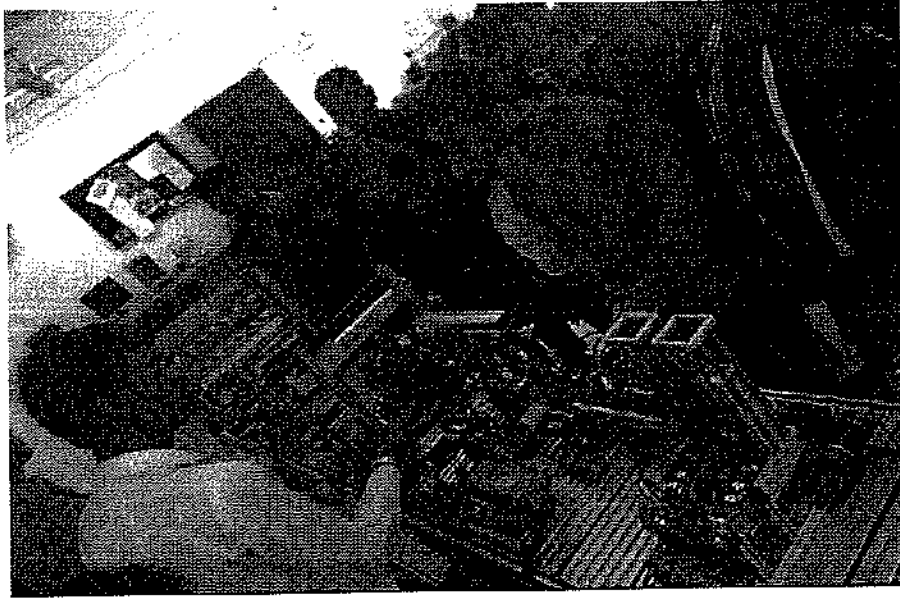

Department of Computer Science & Engineering had organized a One day **Industrial visit** on **February 28th, 2017** to **CSIR-CSIO, Chandigarh**.

A total of 65 students of CSE 6th and 8th semester were accompanied by five faculty members Mr. Hari Singh, Ms. Arpana Dureja, Ms. Sangeeta, Mr. Surjeet Singh and Mr. Balmukund Mishra. Students reached there on time. They got to understand how technology is being used for society. Example of some of these technologies include Earthquake Warning System, divya nayan for visually impaired etc. They had organized an interactive session for the students by various experts of their organization.

02nd-03th March 2017

Department of Civil Engineering
Industrial Visit Report

Department of Civil engineering organise a educational visit to **Irrigation research institute, Roorkee and Hydraulic Research station, Bhadrabad**, for B.Tech. Students on 02th- 03th March 2017.

A total of 50 students of Civil 08th semester were accompanied by three faculty members Mr. Ravinder, Mr. Ravi Malik, Mr. Balbir and Mr. Ayush Vashisth. Students reach there on time.

Hydraulic Research station, Bhadrabad

In **Hydraulic Research station, Bhadrabad** the students visited Hydraulic lab and Model Tray lab. In Uttarakhand, For hydraulic modelling of structures, a large hydraulic Research Station has been setup at Bahadrabad, about 20 km from Roorkee enroute to Hardwar. Bahadrabad site was selected keeping in view the availability of open space along with abundance of gravitationally flowing water. The hydraulic Research Station extends over an area of about 30 hectares. The water requirement of Research Station is met by a gravity channel carrying upto 8 cumec discharge. This station has the capability of constructing and running large scale river valley project models. A class 'B' meteorological observatory is also maintained at Bahadrabad. The students learned about the Hydraulic modeling, Factors which affects generation of hydro power. Besides these, students also visited Model tray lab where they were exposed to prototype and real size model and they scaled.

Irrigation research institute, Roorkee

In **Irrigation research institute, Roorkee** the students visited E H D A and Canal Lining lab. To cater the need of new multipurpose projects which were coming up for execution, particularly in the Yamuna and Ganga Valley located in the central Himalayan region, presently in Uttarakhand, were also assigned to this circle resulting in the creation of Irrigation Design Organisation by expanding the only one Circle to ten Circles under two Chief Engineers in the year 1978 at Roorkee. The Irrigation Design Organisation has been serving the state for the last three decades by undertaking the planning and preparation of efficient and economical detailed designs and construction drawings of various multipurpose, hydroelectric and Irrigation projects with the help of well established infrastructure based on modern techniques.

The Students learned about canal lining and material used in the same, they learned about how lining affect the productivity of crop, how we overcome the leaching problems by the lining of canal, Benefit-cost analysis etc. in material lab they learned about recent advancement in the material mainly used in construction of canal.
