On September 04, 2019, an activity on enhancing public speaking skills was conducted in the classroom that was followed by group discussion. As the name suggests, this is a group activity carried out by the participants. The importance of speaking skills has numerous aspects in our lives. One of the fundamental factors affecting a nation's growth, development, and progress is its level of education. It will bring about improvements that have an impact on societies and people advanced attitudes. Speaking skills may always produce individuals with personality and diversity. In this circle of life, discussion is very fundamental to moving ahead. A group means a team of people, and discussion relies on unanimous consultation. Speaking skills are now required for all good job interviews and professional circle to analyse the potential. Exchanging perspectives on a given topic indicates the depth of knowledge, manner, and ingredients of style.

Overall the discussion was positive because each one of us contributed good information and everyone listened with the utmost interest when other members were sharing their ideas. Speaking in the group discussion is gradually bringing everyone in mainstream by boosting their self-confidence.

The session concluded with the Hod of the department, Mr. Atul Gautam along with Ms. Pooja Gupta, facilitating the judge of the event.

Students learnt about:

- Students understand the key skills and behaviors required to facilitate a group discussion.
- Students consider some of the difficult behaviors that can occur in meetings.
- Students think of some possible strategies for dealing with these.
