Report on workshop- "INFORMATION SECURITY"

Speaker-Mr. Sunny Tyagi, Contact no. (9895149910) Cyber Security professional and crime investigator.

Founder of Cyber threat Haryana, Crime Investigator in CSEM CBI and NIA.

Date-14th October 2021

Time-10:00am – 4:00pm

Venue-G Block, Lab number- 504

Mode- Offline

No. of students attendees- 20

Coordinator :- Mr. Kunal Uppal

The Department of CSE(Cyber Security) organized a one-day workshop on INFORMATION SECURITY on 14th Oct 2021 in G-block. The workshop started at sharp 10:00 am. The coordinator of the Workshop was Kunal Uppal, who welcomed the speaker of the session, Mr. Sunny Tyagi. The Workshop's goal was to educate participants on the practice of preventing unauthorized access, use, disclosure, interruption, alteration, inspection, recording, or destruction of information.

Mr. Sunny Tyagi provided valuable information regarding basic cyber security concepts and terminologies. He discussed about information security which involves implementing a multi-layered approach to protect data and systems from threats. Information security operates through a structured framework designed to protect data and systems from various threats. He informed about various security policies and procedures that outline how information should be handled, protected, and managed. How regular risk assessments were done to identify potential threats and vulnerabilities to their information assets. This involves evaluating the likelihood and impact of various risks and implementing strategies to mitigate them. There was also a case study covered. In the event of a security incident, organizations confine, look into, and resolve the problem using a predetermined incident response strategy.

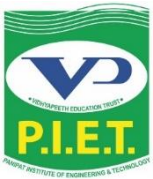

Information security is an evolving field, and Mr. Sunny emphasis that organizations must continuously improve their security practices. Organizations must conduct regular security audits and assessments to ensure that their security measures are effective and in compliance with legal, regulatory, and industry standards.

Security policies and training were discussed to educate users about best practices and ensure compliance with security measures. He provided audience with critical knowledge and guidance in the realm of security, as well as clearing up any uncertainty.

Mr. Sunny Tyagi also dive deep into advanced security protocols; some of the more technical explanations might be too complex for a general audience but still tried to explain.

In the end he actively encouraged questions and provided thoughtful answers, fostering a collaborative learning environment. The students' interaction with Mr. Sunny Tyagi was very good in terms of career guidance.

At the end of the program, Dr. Shakti Arora honored and praised the speaker for encouraging and informing the students with fundamental facts regarding data protection.
