The Department of Computer Science and Engineering organized a One Day Workshop on PYTHON in association with Appwars Technologies Private Limited, Noida on March 24, 2023 from 10 AM to 4.30 PM in the seminar hall, ground floor, E-block. Python is a high-level, general-purpose programming language. It is dynamically typed and garbage-collected. It supports multiple programming paradigms, including structured, object- oriented and functional programming. Considering the growing importance of the language in the programming world, the students were encouraged to attend the workshop.

The session began with a welcome of the resource person. Mr. Jitender Kumar, Data Scientist, Appwars Technologies Private Limited, Noida was the invited resource person to conduct the workshop. He started the session from basic programming concepts & then advanced to higher levels. He discussed the syntax & semantics initially, then stressed upon the importance of Python in the emerging areas of Machine Learning, Data Science, Artificial Intelligence, etc. This workshop covered various skills including text manipulation, modular programming, working with and retrieving data, interacting with files on your computer, and using some of the more popular third-party libraries (and getting them installed when and where we need them). The goal is to get participants up and running with Python in as short a time as possible.

The workshop participants were able to successfully code and run their programs. The workshop turned out to be a major successful event, imparting lot of knowledge about python programming and how to solve simple problems with python programming.

The session concluded with the felicitation of the resource person by the HOD, Dr. S.C. Gupta along with Ms. Aakansha Mahajan and Mr. Puneet Sharma.
