MEMORANDUM OF UNDERSTANDING
ON ACADEMIC RESEARCH AND COOPERATION
BETWEEN
PANIPAT INSTITUTE OF ENGINEERING & TECHNOLOGY, SAMALKHA
AND
HANUMAN FOUNDARY, SAMALKHA, PANIPAT

PIET and Hanuman Foundary seek to promote cooperation and advancement of technical understanding. Considering their common interest in promoting mutual cooperation in the area of education and research, both parties, therefore, wish to expand the basis for friendly and cooperative educational exchange and academic collaboration, and have set forth the following Memorandum of Understanding (MOU). Nothing in this agreement shall be construed as creating a legal relationship between parties except as specifically provided in this MOU.

ARTICLE I
PURPOSE

The purpose of the MOU is to develop academic and educational cooperation and to promote relations and mutual understanding between PIET and Hanuman Foundary.

ARTICLE II
SCOPE OF ACTIVITIES

Both parties undertake to promote and develop academic co-operation in the following ways:

1. Encouraging academic exchange and cooperation between both.
2. Joint research activities in areas of mutual interest.
3. Inviting faculty members, research scholars and/or students for academic visit.
4. Exchange of publications and other teaching materials.
5. Co-sponsoring seminars, courses, workshops and other academic meetings on matters of mutual benefit.
6. Assistance with developing relations and cooperation with industry and other institutes in country.
7. The details to be considered by both parties, with possible separate development and agreement, according to appropriate college and industry requirements.

ARTICLE III
ACTIVITIES AND FINANCIAL ARRANGEMENTS

1. Both parties agree that all specific arrangements and plans for activities are to be negotiated and are dependent on the availability of funds and resources for each such activity.

2. Both parties agree to seek financial support from national and international organizations for the cooperative activities to be undertaken as stated under the terms of this MOU.

ARTICLE IV

INTELLECTUAL PROPERTY RIGHTS AND PUBLICATIONS

1. PIET and Hanuman Foundary will share all data and research findings relating to this MOU and the relevant National Agreement for Academic Cooperation; and ownership of any patent rights, copyrights, and other intellectual property rights to any discoveries, inventions, and products resulting from this MOU and National Agreement for Academic Cooperation that may be commercially useful will be determined based on the contributions of PIET and Hanuman Foundary.
2. Both parties must give written approval for the utilization and publication of any data and research finding resulting from a joint activity relating to this MOU and the relevant National Agreement for Academic Cooperation.
3. Detailed management of intellectual property rights and publications shall be defined and provided in National Agreement for Academic Cooperation of each activity.

ARTICLE V

SETTLEMENT OF DIFFERENCES

Any differing viewpoints or interpretations of this MOU shall be settled amicably by mutual consultation or negotiation.

ARTICLE VI

MISCELLANEOUS

1. This MOU can only be amended in writing by mutual consent of the two parties.
2. This MOU shall be in effect from the date of its signing and be valid for the duration of 10 (Ten) years from that date, and will be automatically renewed on an annual basis thereafter, unless terminated or replaced with a new MOU.
3. This MOU may be terminated by either party by written notice at least 6 (six) months in advance. In case the MOU ceases to be in effect on account of termination thereof, the provisions of the International Agreement for Academic Cooperation shall continue to apply to the extent necessary to secure the continued implementation of existing activities as agreed upon in the agreement.

This MOU written in English in 2(two) copies, both of which are authentic. As witness to their consent to this MOU, the appropriate authorities hereunto provide their signatures.

Interactiv Experiential Pvt. Ltd.

Director

Australian Institute of Water Sciences

November 2018

Memorandum of Understanding

This Memorandum of Understanding is made on this 17th Day of November 2018, at Haryana, India

Between

Australian Institute of Water Sciences Pty Ltd, Frankston, Australia through its Director- Professor Phillip Bell

And

Panipat Institute of Engineering and Technology, Haryana, India through its Director – Professor Shakti Kumar PhD

1. Background

Australia employs world's best practices with respect to all facets of water management- potable as well as wastewater treatment. In light of this, all water treatment process facilities in Australia are under regulatory obligation to provide environmentally safe and secure output by appointing trained personnel with specific skill sets that these facilities are operated correctly and optimally, as well as ensure that they meet the expectations of longevity and return of investment.

Director
Panipat Institute of Engineering & Technology
Patti Kalyana-Samalkha (Panipat) (Haryana)

2. Training Methods

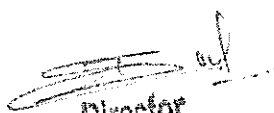

Operator training is provided at Certificate III and IV, all of which provides various levels of skill sets that correspond with appropriate operator responsibilities.

3. Scope and Need of Services

Currently, AIWS affiliates and associates are in discussion with various Indian State Governments in India to adopt the Australian and similar models such as the United States, United Kingdom, Europe and New Zealand including the need to standardise the efficiency and expectations of potable water production and wastewater (domestic and industrial) treatment in India. To that end the goal of this project is to align with other developed countries in recognising the need to operate this infrastructure at its optimal efficacy and efficiency. To achieve this goal training of and expected skill sets of operators will be mandated by State Governments' Pollution Control Boards and other regulatory authorities. In summary this framework provides the following significant benefits.

- Water and wastewater treatment meets world's best practice currently adopted by all developed nations.
- Effective and efficient operation of water and wastewater facilities leads to better environmental outcomes
- Correct and optimal operations of water and wastewater facilities leads to minimal downtime and reduced maintenance and repair costs.
- Expensive water and wastewater infrastructure life is prolonged
- Use and of chemical additives is significantly reduced
- Workplace safety is enhanced with fewer incidences of injury
- TCO (Total Cost of Ownership) is significantly reduced.
- Standardisation enables trained operators to follow best practices.

Director
Panipat Institute of Engineering & Technology
Pati Kalyan-Samalkha (Panipat) (Haryana)

4. Business Model

The Australian Institute of Water Sciences together with Panipat Institute of Engineering and Technology and affiliated Colleges / Institutes / Universities will provide training for courses offered by AIWS.

5. Launch

The intention is to commence operations throughout Haryana in particular, and the Indian sub-continent generally.

6. Roles and responsibilities:

6.1 Australian Institute of Water Sciences:

- i. Develop a framework for education providers in India to be able to deliver the courses that correspond with local requirements of the Pollution Control Boards and other regulatory authorities throughout Punjab and Haryana.
- ii. Adopting world's best practice involves the delivery of a minimum of eleven 11 modules for students with SSC/HSC pass and 5 additional modules for undergraduate and / or graduate students to achieve higher levels of skill. The Intermediate Certificate Course will be delivered tentatively in 100 hours over 4 to 6 weeks by the education provider in India. The course content including details of classroom, laboratory and plant activity will be provided by the Australian Institute of Water Sciences.
- iii. Australian Institute of Water Sciences will deliver a "Train the trainer" program that will prepare professors/ tutors from Indian education institutes. These professors / tutors / trainers will in turn conduct the courses in India.
- iv. The number of Trainers will depend on expected student enrolments. The Indian education provider will not deliver the course without trainers first being trained by the Australian Institute of Water Sciences.
- v. It will be the responsibility of the education provider in India to nominate the number of trainers however, the Australian Institute of Water Sciences will take necessary steps to ensure that the minimum number of trainers are trained. The ratio of students to trainer is capped at 50:1.
- vi. The Australian Institute of Water Sciences will provide assessment and certification on satisfactory completion of the course. Certification to students after successful completion of course will be issued in Joint names of AIWS and Panipat Institute of Engineering and Technology. In the first year, the Australian Institute of Water Sciences will assist trainers in assessment and course delivery. This will include conducting audits of education providers a minimum of 4 times a year.

- vii. The Australian Institute of Water Sciences will provide ongoing support and consulting to the Indian education with respect to amendments / additions to course structure and delivery methods to maintain standards as required by the State Pollution Control Board.

6.2 Panipat Institute of Engineering and Technology

- i. Provide education facilities in terms of infrastructure which will include and not limited to classrooms, laboratory, trainers, course material in paper and online. The course content for classroom- paper based as well online will be provided by the Australian Institute of Water Sciences to the education provider Panipat Institute of Engineering and Technology, conduct training of operators within designed time frame agreed to by both parties and complete in full classroom-based theory training, lab training and plant activity and site visit. The onus will be on Panipat Institute of Engineering and Technology on whether to visit student work places or choose to hand out a practical activity as an assessment task to be completed and returned.
- ii. Provide on-campus laboratory and water / wastewater treatment plant to conduct practical work for treatment processes, sampling and testing procures.
- iii. Conduct classroom based examination and assessment of students upon completion of course instruction or completion of units.
- iv. On enrolment and completion of course advise the Australian Institute of Water Sciences the details of each successful student so that AIWS will issue their joint certificate in conjunction with Panipat Institute of Engineering and Technology.
- v. Collect fees from students upon enrolment.
- vi. Create a portal which will have details of all students enrolled for the course. This portal will have real time updated status of students' academic records. The Australian Institute of Water Sciences will have access to the portal.
- vii. Sharing of revenues: Panipat Institute of Engineering and Technology will remit to the Australian Institute of Water Sciences & SGA within 30 days of enrolment for every student which will be based on revenue sharing as agreed in the contract.
- viii. Panipat Institute of Engineering and Technology will create a specific section or department of Water Science within an appropriate faculty framework such as Engineering or Science
- ix. Panipat Institute of Engineering and Technology upon signing this agreement will take steps to appoint a person nominated by the Australian Institute of Water Sciences to perform as Co-Chair of the "Water Science" body and assume the position of Adjunct or Full professor for the purposes of providing local training support, lecturing, mentoring, assessment and functional administration.

- x Panipat Institute of Engineering and Technology will be responsible for all marketing and acquisition of enrolments including supply of materials based on artwork supplied by AIWS.
- xi. Panipat Institute of Engineering and Technology will be responsible for all costs and remuneration and general welfare of Trainers. Remuneration of Trainers is the responsibility of Panipat Institute of Engineering and Technology
- xii The Australian Institute of Water Sciences will assume and bear all costs associated with the wages / remuneration only of above co-chair and professorship.

7. Revenue & Costs

7.1 Revenue Sharing

Revenue sharing will be in apportioned percentage as follows:

Panipat Institute of Engineering and Technology - 55% of gross revenue.
AIWS and affiliates - 45% of gross revenue.

7.2 Costs

Each party is responsible for their own costs as follows:

Panipat Institute of Engineering and Technology is responsible for:

- Supplying infrastructure and equipment
- Employing trainers
- Marketing
- Recruiting students to enrol
- Government regulations etc.

AIWS and affiliates are responsible for:

- Training the trainers
- Maintenance of IP
- Providing course content
- Maintenance of accreditation including appropriate fees
- Quality control and management including travel expenses
- Marketing support, brochure and marketing design.
- Supply of certificates / testamurs
- Maintaining a staffed office in India

P. D. [Signature]
Director
Panipat Institute of Engineering & Technology
(Kalyana-Samaldham, Panipat, Haryana)

8. Timeline

The estimated date of commencement of the course is January, 2018 After the agenda for "Train the Trainer's" and first batch of training date is confirmed, this MOU will be finalised in the form of final agreement & contract.

9. Termination

Each party will have the right to terminate the Memorandum of Understanding by giving 3 months' notice in writing to other parties. If the MoU is terminated by either party steps shall be taken to ensure that the termination does not affect any prior obligation, project or activity already in progress.

10. Amendment

The Memorandum of Understanding may be modified or amended by written agreement between parties.

11. Dispute Settlement

Since this MOU does not create binding financial obligations for either party, formal means of dispute settlement like arbitration should be avoided, particularly if the MOU is concluded with an internal settlement. In the event of a dispute, controversy or claim arising out of or relating to this Memorandum of Understanding, or the breach, termination or invalidity thereof (a "dispute"), the Parties will use their best efforts to settle promptly such dispute through direct negotiation. Any dispute that is not settled within sixty (60) days from the date either Party has notified the other Party of the nature of the dispute and of the measures that should be taken to rectify it will be resolved through consultation between the Directors of all parties or their duly authorized representatives. Each Party will give full and sympathetic consideration to any proposal advanced by the other to settle amicably any matter for which no provision has been made or any controversy as to the interpretation or application of this MOU.

Director
Panipat Institute of Engineering & Technology
Patti Kalyana-Samalkha (Panipat) (Haryana)

12. Jurisdiction

This Agreement shall be governed in all respects by laws of India whereas the parties hereby submit to the exclusive jurisdiction of the relevant Court of the State of Haryana, India.

Memorandum of Understanding
BETWEEN
CHUNGBUK NATIONAL UNIVERSITY, REPUBLIC OF KOREA
AND
PANIPAT INSTITUTE OF ENGINEERING & TECINOLOGY, INDIA

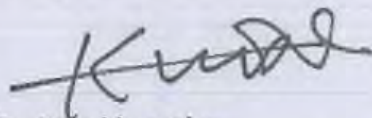

This Memorandum of Understanding (MOU) is entered into by and between the Department of Computer Science, Chungbuk National University, with a registered address at 1 Chungdae-ro, Seowon-gu, Cheongju, Chungbuk 28644, Republic of Korea and Panipat Institute of Engineering & Technology (PIET), with a registered address at 70, Milestone GT Road, Samalkha, Panipat 132102 Haryana, India are referred to collectively, as "Parties" or individually as "Party." This is based on the principles of equality and reciprocal benefit.

1. Purpose: The Parties recognize the benefits to be derived from increased collaboration, cooperation and interaction for the further promotion and understanding of computer science and engineering aspects. The purpose of this MOU is to define the areas for fundamental, academic research in which the Parties desire to work together in the future for their mutual benefit to foster a collaborative framework in the field with a view to benefiting from each other's initiatives and working procedures and to support collaboration among the researchers associated with both Parties.
 2. Department of Computer Science, Chungbuk National University and PIET agree to the following general framework of cooperation. Cooperation in other areas will be arranged through mutual agreement.
 - A. Exchange of Academic Staffs: The two parties may nominate members of their academic staff to participate in exchanges for the purpose of lecturing, study, research, and student research supervision, subject to approval by both institutions.
 - B. Visiting Research Fellow: Either party may nominate one or more of its faculty or students to visit the other parties for the purpose of advanced study or research, subject to the approval by the host party.
 - C. Exchange of Students: Either party's student may participate in exchange program according to term and condition of memorandum.
 - D. Exchange of academic Staff: Either parties may exchange their academic materials and publications in fields of interest.
 3. The areas of cooperation include, subject to mutual consent, any Program offered at either party as felt desirable and feasible on either side and that both sides feel can contribute to the fostering and development of the cooperative relationships between the two parties.
 4. The assistance to be provided by each of the contracting parties will be teaching, research, exchange of faculty and students, and staff development, etc. as deemed beneficial by the two parties.
- 
- 
- 

- 
- 
5. The students participating in the exchange program or specified degree program such as Masters or PhD during the term of MOU will be selected initially by the home party, and the host party will make final admission decision in each case. Applications each year must meet the normal deadlines of each party.
 6. The field of study for each student will be such that the host party can appoint a qualified advisor and provide appropriate courses of study.
 7. Each party agrees to provide the other side with the documentation of course work completed by the students and appropriate academic information on their performance. Based on these reports, the home party will determine the appropriate suggestions to be given to the students according to its rules and regulations, if necessary.

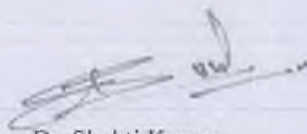

This Memorandum shall remain in force for a period of five (5) years from the date of the last signature, with the understanding that it may be terminated by either party giving notice to the other party in writing no later than the end of March in any year. The agreement may be extended by mutual consent of the two parties.
