Department of Applied Sciences & Humanities

Director's Message

Dear Aspirants !

I take immense pleasure in welcoming you to PIET-an institute dedicated to reinforcing academic and technical excellence based on holistic training, in sync with the paradigm shift in job space and to bring out the potential within the students. Realising that technical education occupies increasingly greater space and interest, all aspiring engineers must be awakened to remain sensitive and keep themselves abreast of the latest developments in technology with growing awareness. We provide robust programmes recreational, cultural and sports extravaganza, pragmatic study tours, cumulative skill honing sessions for the all-round development of our students. I would like to reiterate that PIET is the most exhilarating place to learn due to its innovative approach We shape your destiny by empowering you with various employability skills through suitably designed teaching learning processes.

DR VINAY KHATRI, HEAD MESSAGE

Engineers play the most vital role in nation building by creating updated inventions to make human life comfortable and better. I welcome budding engineers to this excellent campus of PIET. The dedicated, qualified and experienced team of the department of Applied Sciences and Humanities is ready to provide a complete package of educational services to new entrants. The core values of the department help the students to develop their overall personality and make them worthy technocrat to compete and work at global level.

I am certain that our students will prove to be an individual asset to institute and any organization.

Yes PIET.

B. TECH STUDENTS INDUCTION PROGRAM (2018)

UDAAN-The Flight to Success

Induction of students in the beginning of session is a commendable effort introduced by the AICTE, and further followed by different universities and colleges for the induction of students. PIET is also one of those colleges who are following it with full enthusiasm and grace so that they can incur the basic values in the students. To build a strong connection among students and teachers is on the priority side of this induction program. It ensures overall induction of the students through different activities and programs.

Department of Applied Sciences and Humanities is putting its best efforts to inculcate those values in students that are needed as per the guidelines of AICTE. The Department organized three weeks long Induction Program, i.e. “UDAAN-The Flight to Success”, in the year 2018, for the holistic development of students.

Day 1-3rd Aug 2018

The first day of induction program started with Saraswati poojan in order to enrich students with the cultural values and making them aware to preserve the culture of our society and country. After that the students were given a formal introduction of the college and its vision. The students were made to know the available resources that are available, and how they can utilize them effectively.

The Student Captain of the year then delivered key note address about the Department of Applied Sciences and Humanities.

The theme of the program was “Unity in Diversity”, and a play was performed to make students aware of the advantages of unity for the society and country. They were awakened about the existing problems, their causes, and how to create a peaceful society.

The Head of the department, Dr. Vinay Khatri, motivated the students about the bright career aspects of different engineering branches. She acquainted the upcoming engineers that how Department of Applied Sciences and Humanities can help them to build a stronger base during the first year of engineering. She also introduced the students with the members of faculty of the department. A beautiful musical presentation titled as “Indradhanushi PIET” was shown to all the students of all the seven departments related to Engineering i.e. ASH, CSE, IT, ECE, TE, CE and ME, representing the seven colors of the rainbow.

The Dean Academics of the college in his key note motivated the students about the importance of knowledge rather than grades or marks.

The Administrator addressed the students about the disciplinary rules of college and how can it help the students to achieve success.

The Management team of PIET then inspired students about placements and start-ups through Case studies of PIETians. They promoted students to think and act accordingly for their project ideas and how they can be benefited by the college. The requirement of the interpersonal skills apart from Core-Engineering by the Corporates was also enlightened by the management team of PIET.

Along with this there were some performances of the students which made everyone enjoy the day.

Day 2-4th Aug 2018

The day started with “Career Grooming” session by Mr. Surya Narain Bahadur, an excellent Corporate Trainer at Confluence Training and Development.

In the session, the kits were distributed that comprised a workbook which was followed throughout the session. It had various segments including Intelligence Quotient Test,

Psychometric Test, communication drills and Team work exercises.
As various exams and corporate placements tests require a good IQ level, so the first part of the session was primarily given for IQ and aptitude improvement skills. After that, Psychometric analysis of every student was done which was one of its kinds. The test was done with few common questions asked from the students by the trainer, Mr. Surya. The students were then made to understand about themselves through the result of the test.

The most interesting part of the session was on communication improvement. The students were first of all trained for giving better Introduction of them. Then, they were made aware about the common errors that we make on daily basis. The techniques of effective speech delivery, group discussion and debate were also provided to the students.

Induction further went ahead with different activities like personality development classes, yoga and meditation session, sports activities, communication skills classes etc. Further, Three days 'Entrepreneur Awareness Camp' to develop entrepreneurial skills in students was conducted by the Applied Sciences and Humanities Department. Thereafter, three days trip to Nainital was organized which made the students feel one with the nature. Students were given exposure of beautiful campsites, trekking activities, bonfire etc. to break the monotony of routine life. The theme of the event i.e. "Unity in Diversity" was fulfilled through the team work tasks that were performed for fun during this induction period.

VISIT TO NAINITAL

Industrial Visit to Samrat Steel

Industrial visits are considered as one of the tactical methods of teaching. The main reason behind this is that it lets the students to know things practically through interactions, working method and employment practices. On 17th August 2018, an industrial visit to 'Samrat Steel' was organized for 1st year B.tech students by Applied Science and Humanities Department of Panipat Institute of Engineering and Technology under the guidance of Dr. Vinay Khatri (HOD, ASH). The students were accompanied by Dr. Poonam (AP), Dr. Monu Kalra (AP), Mr. Nitin (AP) and Mr. Vikas (LT).

'Samrat Steel' Industry clearly depicted what a mechanical industry is! The humid and hot weather inside the industry describes the hardness faced by the workers at work. The manager of the industry described about the various processes involved for the manufacturing. Bath tubs are required to remove the rust from the raw material, and then the wires are drawn to straighten them. Thereafter, the drawn wires are cut into pieces. These wires are then put to different Lathe machines where different sizes of nuts and bolts are manufactured. These are then garnished to draw threads. Lastly, they are packed in sacks marked as per their weight.

Students were given refreshment after the visit. The experience of visiting the industry was profound and purely beneficial for the students as it gave the practical relevance to their subject knowledge.

Teachers' Day Celebration and Talent Hunt

'True teachers are those who help us think for ourselves'
-Dr. S. Radhakrishnan

5th September 2018 was an auspicious day for students to celebrate Teachers' Day which marks the birth of the great teacher, Dr. Sarvepalli Radhakrishnan. On the same day, TALENT HUNT was also organised for the first year students of B.tech by the Department of Applied Sciences and Humanities to showcase the ingrained talent.

There were 5 events in which students participated, and that were notice board competition, singing, solo dance, duet dance and speech. The event began at 9:15 a.m. in the seminar hall of Panipat Institute of Engineering and Technology.

The seminar hall got overflowed with pupil who wanted to celebrate teachers' day with respect and love for their gurus, and to witness the talent of the participants. Talent Hunt had its own flair, but the major attraction was the love and affection of the students which seized the moment.

The anchors took the stage and welcomed the dignitaries, HOD (Dr. Vinay Khatri), all the faculty members and the students. Thereafter, Lamp lightening by the esteemed personalities marked the beginning of the show.

One after one, the talent of the students was showcased which swayed everybody in the audience. The beautiful presentation dedicated to teachers was surprisingly played in the midst of the show. Hence, one could easily sense the amalgamation of Talent Hunt and Teachers' Day Celebration.

The inspiring words said by the Head of the Department, Dr. Vinay Khatri enthralled everybody in the audience.

Then the time came to announce the results for which everybody was eagerly waiting.

Team (Aahu, Aashish, Tushar and Anjali) of Section C bagged the first position in Notice Board Competition. In Singing, Satyam of Section C got the first position, and Sudarshan and Utkarsh of Section A got the second. Angel and Abhay secured the first position, and Shreyanshi from Section C and Pulkit from Section A got the second in Solo dance. Sarthak from Section B won the first and Vicky from Section C won the second position in Speech.

Everybody was rewarded with the certificate and trophy by the dignitaries. Last but not the least, the students presented cards and gifts, as a token of respect to their teachers. It concluded with a 'thank you note' delivered by a student representative, marking the importance of teachers.

CARBUNCLE 2K18

Panipat Institute of Engineering and Technology organizes an annual sumptuous fresher's welcome party '**Carbuncle**' i.e. 'The Fresher's Fest' a platform for exhibiting the latent talent of the new aspirants as a part of their personality development. It is a function comparable to sprouting of seeds, as the seniors infuse the PIET culture into the budding generation of the institution to keep the ball rolling into the right direction. It includes all sorts of competitions in series of events like Declamation, Dumb Charades, Ad-mad Show, Solo singing, Duet dance, Solo dance, Group dance, Fashion Show etc.

The purpose of this event is to welcome and make every fresher feel an integral part of PIET family and gear up for the challenges ahead. Jovial smiles and beaming faces marked the '**Carbuncle+ 2K18**' organized in the Dr. APJ Abdul Kalam Auditorium and the amphitheater on **28th & 29th September 2018**, a two-day event, which manifested unusual overwhelming enthusiasm among the students.

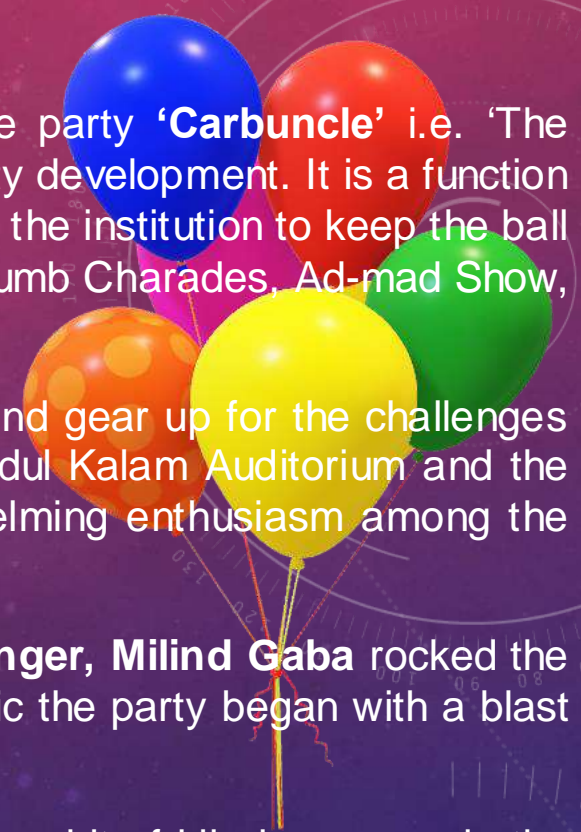

The star attraction and talk of the town was the star night and on this occasion the famous **Punjabi singer, Milind Gaba** rocked the stage with his foot tapping performance. With pulsating ambience, flashing lights and foot tapping music the party began with a blast of unbridled energy.

Parminder Singh, the comedian was another star attraction who made every one laugh and infused a spirit of hilarious wave in the party. The hearts of all the PIETians enthralled with the mesmerizing performances of the stars. Yes, it was a night of fun and frolic, singing and dancing, celebrating all the way with fresh and raw talent of PIET combined with the star performances.

Finally, it was time for the party to end but not without prize distribution ceremony for the students who scored different positions in various events like anchor hunt, ramp walk, singing, dances and various other competitions.

Shine from Diploma got the second position in Declamation. Ankit from B.tech first year secured the second position in Anchor Hunt. Hardeep and Tarun from B.tech first year got the third position in Dumb Charades. Vanshika of B.tech first year got the title of 'Well dressed'.

Then, the chief guest was being presented with the memento by the Management and they appreciated the meticulous efforts and planning of all to make the event a grand success.

Department of Applied Sciences & Humanities

PANIPAT INSTITUTE
OF ENGINEERING & TECHNOLOGY
(Approved by AICTE & Affiliated to Kurukshetra University, Kurukshetra)

Science Day Celebration

The Department of Applied Science and Humanities of Panipat Institute and Technology celebrated the National Science Day. It was on this day that Sir CV Raman announced his unique discovery known as “Raman Effect”. This discovery brought him Nobel Prize for Physics in 1930. Since 1987, this day is celebrated in various Schools, Colleges, Universities and Research Institutions.

The chief guest of the event were Sh. Hari Om Tayal Sir (Chairman, PIET) and Mr. Shubham Tayal (Member BOG, PIET). The event began with lighting of the lamp and garlanding the statue of Goddess Saraswati by all the dignitaries. Thereafter, the coordinator of the event, Dr. Monu Kalra Batra addressed the students telling about the importance of the day. Then Dr. Vinay Khatri (HOD, ASH) in her talk, inspired the young minds to follow the great scientists and engineers of India and bring glory to the Nation, and motivated the students to explore their talent and mind in the research oriented studies. She also said that Science & Technology are having interface to each other. The need of the hour is of men of wisdom. She further emphasized that science is the mother of technology and engineering & explained about her research work on ‘LASER TECHNOLOGY’ and its impact on the current scenario.

The event further went ahead with speech competition in which participants gave the speech on ‘Science Day’. The audience was enthralled by the wonderful speakers. In the end, the winners of the speech competition were rewarded by Sh. Hari Om Tayal Sir (Chairman, PIET), Mr. Shubham Tayal (Member BOG, PIET) and Dr. Vinay Khatri (HOD, ASH). Akash from Section D got the first position and Anoop Kumar Mishra from Section C got the second. Mr. Shubham Tayal (Member BOG, PIET) then gave the concluding note on the day of the event and motivated the future engineers to create a name in the history.

Achievement of our students in SMART INDIA HACKATHON 2K19

Preparation

Registration and verification

Panipat Institute of Engineering & Technology had the privilege to be one among the 28 nodal centres in India and the only one in Haryana region for “Smart India Hackathon-2K18”.

It hosted 36 teams with 288 youngsters who coded non-stop for 36 hours during Grand Finale. Student’s brain stormed to find creative solutions for the 13 problems posed by Ministry of Communications.

The Department of Applied Sciences and Humanities feels proud to announce that Shriyankshi Gupta(Section-C), Sarthak Kaushik(Section-C), Savvy Sahrma(Section-C), Anjali Garg(Section-C), Akshat Jiwari(Section-C) and Sreshth Goel(Section-D) from B.etch First year got the ‘We School Inspiration Award’ in Smart Hackathon 2K18.

Presentation in front of judges

PINKATHON

8th March, the world celebrates International Women's Day – a global event that honours the social, cultural and political achievements of women.

To celebrate this, District Administration Panipat in collaboration with PIET organised the first ever “Panipat Pinkathon 2019” on 8th March.

The main aim of the program was to encourage women for an active lifestyle, give women a platform to express solidarity & highlight through the event the importance of taking women on board in the state's pursuit of peace and progress as they are valued multiplier.

PIET emerged as a strong advocate of the cause and created a benchmark by adding a feather in its cap. The event was recognised in the “World Book of Records, London” as it witnessed the highest number of women (55,498) participants.

THANK

ASH, HOD

Dr. Vinay Khatri

ASH, E-Committee

Ms. Geetanjali Papreja
