In business, one of the fundamental measures of success is the ability to build long-term, profitable relationships. These Relationships can be profitable by measure of intangible assets, such as knowledge, experience, goodwill, association and reputation. In the quest for driving toward optimal outcomes in any relationship, valuable connections begin by passing the initial test of making a good first impression. These early encounters are often evaluated by a person's conformity to cultural norms and social graces.

Social graces are skills used to interact politely in social situations. They include manners and etiquette, which are specifically accepted rules within a culture for the application of universal manners.

Finishing school is a great platform to learn new things and it has given me new experiences that can't be learnt from books. I am thankful to the Finishing School mentor.

We never forget what we learn with pleasure. I have been an active member of THE FINISHING SCHOOL, wherein our mentor headed us towards featuring ourselves. I believe it is a great concept and should be implemented in every profession.

The finishing school is a personality development course offered by our valuable mentor. It has helped us to get rid of hesitation and start participating in every activity.

It's difficult to express the contribution of the Finishing School in few lines. But, every second I spent in the class, I felt myself pervaded with abundant enthusiasm, passion and wisdom.

TIt was the best learning experience, as I participated in the FINISHING SCHOOL activities, lots of memories have been collected. I worked in a team and we set a benchmark. I can never forget that it motivated me to participate more and explore more.

The finishing school has given the students abundant opportunities to discover their talent and showcase their passion in form of different activities.

I've got so much to learn from the finishing school classes. It has helped me to develop my overall personality.

Finishing School is one of the greatest concept started by Department of Management Studies under the guidance of our esteemed mentor Ms. Jayti Mahajan. This has personally helped me to grow and enhance my skill set, May it be communication skills, presentation skills or soft skills. From being an introvert earlier I have become an extrovert now.

The second semester of the degree has been very fruitful.

The efforts our faculty showed are appreciable and we have grown to a great extent with lots of learning.

The head of the Finishing School is the best teacher to help me prepare for the interview. She has lots of ideas to help me study effectively and to improve my skillset.

The Finishing School has helped me alot in finding the capabilities that I inherit. The guest lectures that were arranged gave the required flavour of the corporate world that is needed in order to mould ourselves to be corporate ready. Our respected faculty member Mrs. Jayti Mahajan is hands down the finest teacher who excerpts best from her students.

My experience with the Finishing School has been very productive and insightful. Overall, it helped us to inculcate the corporate values. I am glad to be the part of it. I am highly thankful to our mentor Ms. Jayti Mam.

Sakshi Kundu

Great energy from Jayti Mam makes finishing school activities enjoyable. I feel much more confident in myself. Being a part of the Finishing School, I found it fun, engaging, and motivating.
