

Earth Day Celebration

Celebration of Earth Day at Indira Gandhi Stadium, Delhi: Assembly of Climate Clock by Students of PIET College, Organized by AICTE under G20

Earth Day is a global event celebrated annually on April 22nd to demonstrate support for environmental protection. We had celebrated Earth Day at the Indira Gandhi Stadium at Delhi, where students from PIET College assembled a Climate Clock. The event was organized by the All India Council for Technical Education (AICTE) under the G20 initiative to spread awareness about environmental issues and promoting sustainable practices. The day serves as a reminder of our responsibility to protect and preserve the planet for future generations.

The celebration took place at the prestigious Indira Gandhi Stadium in Delhi, known for hosting significant national and international events.

The event brought together students from PIET College, an esteemed institution known for its commitment to environmental sustainability. Students with diverse backgrounds and interests actively participated in the assembly of the Climate Clock. The centerpiece of the event was the assembly of a Climate Clock. The Climate Clock is a symbolic representation of the urgency to take action against climate change. It displays a countdown timer indicating the time remaining to limit global warming to 1.5 degrees Celsius, a target set by the Paris Agreement.

Under the guidance of experts and volunteers, the students meticulously assembled the Climate Clock, incorporating various components such as LED displays, timers, and environmental graphics. The assembly process showcased the collaborative efforts of the students in bringing the clock to life.

To enhance the students' understanding of climate change and sustainability, interactive workshops were conducted. Experts in the field discussed topics such as renewable energy, waste management, and the importance of biodiversity. The workshops aimed to inspire the participants to become advocates for a greener future.

environmentalists and policymakers delivered inspiring speeches to motivate the students and create awareness about the significance of Earth Day. Their speeches emphasized the role of young individuals in driving positive change and preserving the environment.

Exhibitions and Demonstrations

To engage attendees, exhibitions and demonstrations were organized, showcasing innovative projects and solutions related to sustainable practices. Students presented their research, prototypes, and initiatives focused on renewable energy, water conservation, and waste reduction.

Outcome and Impact

The celebration of Earth Day at Indira Gandhi Stadium and the assembly of the Climate Clock had several positive outcomes and impacts, including:

Increased awareness: The event created widespread awareness about climate change and the need for urgent action.

Educational opportunities: The workshops and exhibitions provided students with valuable insights and knowledge, encouraging them to pursue sustainable practices in their personal and professional lives.

Youth empowerment: By involving students in the assembly process and providing a platform to showcase their projects, the event empowered young individuals to actively contribute to environmental conservation.
