Visit to National Stock Exchange of India (New Delhi)

Dated 13 Nov,2024.

About the Visit:

We had an incredible opportunity to visit the National Stock Exchange (NSE), one of the pillars of India's financial markets. This industry visit provided our students with firsthand insights into capital markets, stock trading mechanisms, and the role of NSE in driving economic growth.

The session was both engaging and enriching, offering a practical understanding of concepts taught in the classroom. Such experiences empower our students to connect theoretical knowledge with real-world applications and prepare them to thrive in the dynamic world of finance.

A big thank you to NSE for hosting us and facilitating this learning opportunity!

Objective for Industry Visit to NSE Delhi for MBA Students

- **Practical Exposure:** To provide students with real-world insights into the functioning of a premier stock exchange and its role in the financial markets.
- **Understanding Market Operations:** To help students comprehend trading mechanisms, settlement processes, and risk management practices in the financial market.
- **Knowledge of Financial Instruments:** To familiarize students with various securities such as equities, derivatives, bonds, and their significance in the capital market.
- **Learning Technology Integration:** To understand the advanced technological infrastructure used in modern stock exchanges for seamless and efficient trading.
- **Regulatory Framework:** To provide an understanding of the regulatory and compliance framework governing the operations of the stock exchange.

- **Career Insights:** To explore career opportunities and industry expectations in the domain of financial markets and stock trading.
- **Practical Application of Concepts:** To bridge the gap between theoretical learning and practical applications in financial management, investment strategies, and market analysis.
- **Networking Opportunities:** To interact with professionals and gain insights into the trends and challenges of the financial industry.

Glimpse of the visit
